OBJECTIVES

To work in the IT area developing and managing mobile and web applications to meet both individuals and organzationals needs.

SUMMARY

Web Developer currently especializing in mobile development.

ACADEMIC BACKGROUND

❖ Graduated in Analysis and Systems development at UNESA (Universidade Estácio de Sá)
  March 2016 – July 2020
  Status: Concluded

❖ Undergraduate in Human Resources Management at UNESA (Universidade Estácio de Sá).
  March 2015 - Dezember 2015
  Status: Dropped Out.

WORK EXPERIENCE

❖ **March 2019 – July 2020 – BR Distribuidora**

  Intern

  Development of hybrid applications for mobile devices using Angular framework in its versions 7, 8 and 9, being such an application developed using the Reactive Programming Paradigm, using RxJs and NgRx libraries, alongside with other libraries related to responsive layout and Angular Flex as well as angular material. Regarding database and services I also work with Firebase and BigQuery through data storaging and consultation.

  I have also worked developing a hybrid application using Ionic framework 4.

❖ **2016-2016 – XXXI Olympíc Games (Rio 2016)**

  Volunteer

  After two months of training, I worked in the functional area **Sports Presentation** as an Awards Cerimony Assistent in which I had to carry the medals which would be given to the athlets on the podium.
